A serpent stood on a moss-grown rock, Discussing the Tariff law, And a tiger tried to pick the lock Of a ship canal he saw.

A big green parrot was planting stones To raise rock country roads, And a turtle piped in shrill notes Above the plain tree tops.

A sacred cow and a tumbler both Were playing a game of chess, While an old ewe-wolf was catching cold And sneezed till she tore her dress.

GRANT and great lawyers make mistakes as well as common people. Samuel J. Tilden made a will that nobody could understand, or at least which was broken, and now the courts have decided it as ex-President James K. Polk's is worthless. As a result \$300,000 worth of Nashville property will go the way he didn't intend.

Mrs. JOHN W. CARRY of Hartwell, O., is a candidate for a dime museum. A few days ago she filled her mouth with pins while sitting a drowsy, and thinking she had taken them all out, she suddenly swallowed one. ### HE'S A TOUGH FROM TOUGHTON.

That's what the Covington Coppers Say of Capt. Fitzgerald's Capture.

Harry Spaulding, the youth arrested by Captain E. W. Fitzgerald of this city, the particulars of which appeared in yesterday's LEDGER—for robbing the Post-office at Concy Island, the little hamlet of that name on the C. and O. Railroad near the Covington Water works, is one of the toughest youths the Covington police ever had to deal with. He has been in the City Court a dozen times to answer charges of petty pilfering and the last time for stealing two sets of harness he got a year at Frankfort. He has been but two weeks out of the penitentiary when he is again taken in charge. Chief of Police Goodson took an interest in the youth and tried to reform him. Besides assisting him financially the Chief permitted him to use his skill when he pleased and the very first trip Harry took in the boat was for the purpose of robbing chicken roosts along the Licking river. He was arraigned before Commissioner Fennell and confessed that he assisted in the robbing. He was held in \$500.

GOVERNOR BROWN has signed the "separate coach" bill. The negroes of the state have been strongly opposed to the law, but its effect will probably be to compensate them with plenty of room in traveling at times when the whites are crowded. On such occasions our colored friends should insist on the white folks shunning on their own side.

NIGHT before last a dastardly attempt at incendiarism was made at Sand Hill. Some wretch poured coal oil on the porch of J. B. Wilson's fine country residence, and by the smallest chance the flames were discovered before any serious damage was done. Had it not been discovered Trinity Church, Mr. Wilson's large storehouse and several other buildings would have been destroyed.

### THE ONLY TRUE AMERICAN CITY.

Philadelphia the City of Pleasant Homes and not of Overcrowded Hotels.

The census reports show us that in the matter of separate homes for private families Philadelphia is the most happily situated of any city in the country and probably in the world. Some time since, as we learn from one of Mr. George W. Child's estimable papers, THE Public Ledger, the women of Philadelphia took in hand the matter of designing a model home for working people. The pattern adopted was a separate house for each family, with 800 only bedrooms, a rear yard and cold water, but with a little yard and garden to each. In such a veritable palace of luxury any Philadelphia family can dwell if they can pay as much as eighteen to twenty dollars a month rent. So successful was the model cottage designed for the working people by the Philadelphia ladies that they are preparing a pattern of one of the houses for exhibition at the World's Fair. It will be a model richly worthy study by inhabitants of other cities.

The comparatively very large number of Philadelphia people who live in homes all to themselves is shown in the following facts:

According to the printed statistics, Philadelphia with only a little over a million inhabitants, has 187,000 dwellings, or an average of only 5.60 persons to a dwelling. New York, by contrast, with a population of over 1,500,000, has only 81,839 dwellings, or an average of 18.32 persons to a dwelling. The average Philadelphia family is larger than the average New York family in the proportion of 5.10 persons to 18.32 persons. Only 15 per cent. of the houses in Philadelphia are occupied by more than one family in New York 88 per cent. are so occupied and in Chicago 65 per cent.

There are of course many reasons for the distinct advantage which Philadelphia possesses over other cities, but undoubtedly the greatest of these are the favorable situation of Philadelphia as regards growth, and the power of expansion, and the ease with which property can be acquired in this respect.

The census report had included the proportion of houses owned by their occupants Philadelphia would have shown to even better advantage. To the building societies is due much of the marvelous growth of Philadelphia in this respect.

The opportunity to acquire a home by means of this most useful form of organization is in the hands of every thrifty workman.

"The purchase or erection of homes reduces the burden, causing them to offer more and more attractive houses as the demand increases, and with it the competition. The women of Philadelphia have designed the Philadelphia house. They have demanded that every room shall be lighted directly, that every room shall be entered by a separate door, and have insisted on the various little conveniences one after another which now go to make up the Philadelphia home. Not long ago a competition was held in Chicago for the best model of a workman's home. The plans which won the first prize would have been discarded at once by any Philadelphia woman. Unlighted bedrooms and communicating rooms were among some of the evils of the plan."

J. LEWIS PATTON, Special Agent, is still canvassing Mason and adjoining counties in the interest of a first-class life insurance company.

THE C. and O. people don't seem to be worried over the action of Commander Mack of the Department of Ohio, G. A. R., in selecting the B. and O. S. W. as his official route to Washington. The C. and O. holds contracts with nineteen parties. It seems the only people Commander Mack can speak authoritatively for are the members of his staff. The camel ought to be a Democrat, and he probably is. It is said that "he can go without water for twenty days and carry a heavy load."

It is claimed by *The Washington Post* that over one hundred delegates to the Minneapolis Convention are Federal officeholders; and it adds: "If the order attributed last week to the President, that officeholders must not attend the convention, is carried out, they will be considerably over one hundred absent delegates. In the Northern states the officeholding delegates are not as numerous as in the South."

THE EDITOR who is afraid to speak out on a public question, lest some subscriber will stop his paper, will never secure a very large circulation or an extensive influence. The editor who expects to please everybody will wind up his career by pleasing nobody. The first lesson of independence for the newspaper man is to keep his paper as nearly right as possible without fear of the subscriber who stops his paper.

THE LEDGER is glad to learn from *The Kentucky Journal* that Newport has "capitalized to nothing but enterprise and rapid transit," which mean, of course, reduced fares on her street railways. This is in line with Republican policy—git-and-gift and facilities always result in a reduction of prices. But we will discuss these matters further after the foaming lager that shall flow at the promised social.

DEPUTY Auditor VIRGIL HEWITT says that the available funds in the State Treasury will be exhausted next week, and the deficit will not be met till the taxes collected from the banks come in in July. Members of the Legislature and others having demands on the treasury will have to accept script for their services, or wait till payments are resumed. It will be impossible to pay off any of the items of the general legislative appropriation bill unless some unforeseen changes should come. We submit to our Democratic friends and fellow-taxpayers if it isn't about time to stop talking about Republican extravagance at Washington and look at some of the wastefulness at Frankfort?

## STEAMSHIPS

To Operate Between the United States and Honduras.

The Object to Export Honduras' Fruits and Import Merchandise.

A Company Organized at Puerto Cortes—The Steamers Are to Fly Between That City and New Orleans, Giving Us More Trade Facilities.

WASHINGTON, May 30.—The Bureau of the American Republics has been informed by the Consul General of the United States at Tegucigalpa, Honduras, that a new company has been organized to operate extensively in the fruit trade between Puerto Cortes, on the northwest coast of Honduras, and New Orleans. The company is composed of Dr. J. H. Mitchell and William F. Coleman, Americans, and Nicholas Pula, a Honduran, all business men at San Pedro Sula, a city located at the present terminus of the railroad, 35 miles from Puerto Cortes.

The object is to export bananas and fruits of all kinds, and import all kinds of merchandise. The company will do a general commission business likewise. Contracts have already been made with fruit-growers along the line of the railroad and on the coast to furnish to this company their entire crops. The steamers are to ply direct between Puerto Cortes and New Orleans—making the trip in three and a half days, a saving of one and one-half days on the route heretofore required. The new company will do business on that coast in addition to the two other lines already operating. "The Royal Mail Co. (Macheco), from New Orleans, and 'The West Line,' from New York. Of course, the establishment of this new line of steamers will increase the trade facilities with United States.

Reported That Blaine Will Be a Candidate. NEW YORK, May 30.—The Sun says Wednesday morning: "After the conversation which ex-Senator Platt, Whitelaw Reid, Gen. Horace Porter and other republicans had in the morning of the party had with Mr. Blaine yesterday, the closest friends of Mr. Platt said they had from his own lips that Mr. Blaine, for the last time, in connection with the presentation of his name before the convention at Minneapolis, that it was Mr. Blaine's intention not to return to Washington under any convention, and that by the close of this week he would leave for Maine, and go to Bar Harbor later on."

Tenners to Take a Rest. JOHNSTOWN, Pa., May 30.—On account of an overworked market the tanneries of the United States have decided to close for a period of thirty days, beginning June 1. The Bell tannery, owned by N. W. Rosenthal, of this place, in the combination and has already closed its works. About sixty men are thrown out of employment here. The closing will relieve the market of about \$200,000 hides, the number that would have been tanned in sixty days.

An Insurance Swindler Run Down. LOS ANGELES, Cal., May 30.—Byrant B. Crandall, formerly of Buffalo, N. Y., has been arrested here on a charge of defrauding insurance associations. The story which the arrest discloses is a remarkable one, it being thought long ago that Crandall had committed suicide, a body exactly corresponding to his having been found near Niagara Falls. The body was identified by the wife and relatives, who still live in Buffalo.

Relief for Sioux City Flood Sufferers. DES MOINES, Ia., May 30.—Gov. Boies Wednesday issued a proclamation calling for relief for flood sufferers at Sioux City. The proclamation states that the calamity greatly exceeds the early estimate. The number of families homeless is placed at 1,000, and the number of destitute of all ages fully 5,000. The number of dwellings swept away is given as 167, and two more were rendered untenable.

A Carolina Tragedy. ASHEVILLE, N. C., May 30.—News has just reached here from Macon county, that Nick Ray several days ago shot his brother-in-law, Neely Hensley, and just before Hensley died he drew his knife and fatally wounded Ray. The trouble grew out of family affairs and Hensley was the aggressor. A few days before the tragedy Ray received his commission as deputy marshal.

C., May 30.—A freight train on the Murphy branch of the Richmond and Danville railroad ran away and the engine jumped the track on the mountain near Bryson City turning completely over, catching under it Engineer Hunt, of Morganton, killing him instantly. Another Death Suspense. SEDALIA, Mo., May 30.—A young white man, who gave his name as T. J. Williams, was arrested in this city, charged with the murder of the four women in Denison, Tex., last Tuesday night. The arrest was made in the Western Union telegraph office by Sheriff DeLong, who had a message to be on the watch for Williams.

To Be Presented by Gen. Porter. NEW YORK, May 30.—A Herald Washington special says: Gen. Horace Porter, of New York, will probably present President Harrison's name to the Minneapolis convention. The matter has not been definitely arranged, but it is not doubt will be within the next forty-eight hours.
